The Benicàssim cycling and scenic route is approximately 16 km long with a minimal change in elevation, making it accessible for bike lovers, both adults and children. It is an urban circuit that connects the main tourist areas, allowing you to enjoy the beaches by cycling along its extensive promenade, reaching its historic center, and passing through the old marshland. Furthermore, this scenic and nature cycling route can be linked to the "Vía Verde del Mar" route. Ideal for cyclists of all levels and families, it is a scenic and urban route, perfect for discovering Benicàssim on wheels in a comfortable and friendly environment.

## GREENWAY "VÍA VERDE DEL MAR"

What was once the railway line between Benicàssim and Oropesa del Mar is now a coastal route that allows passage by both bicycle and on foot, suitable for all ages. Along its route, always next to the sea, you

have the opportunity to see two of the watchtowers that protected the Benicàssim coast from pirate attacks, as well as enjoy incredible views of the Mediterranean coast.

## DESERT DE LES PALMES NATURAL PARK

For the more adventurous, the Desert de les Palmes offers a network of hiking trails perfect for families, with itineraries of different difficulty levels. The paths are well-marked and pass through landscapes of great ecological value, with Mediterranean vegetation and rest areas ideal for a stop with children. It is a safe and educational option for enjoying the outdoors as a family. In this area, you will find the Bartola Interpretation Center, which offers information and explanatory panels on the history, fauna, and flora of this natural enclave.

## DISCOVER OUR HERITAGE

Benicàssim's unique historical evolution has endowed it with a varied historical heritage that becomes the perfect opportunity to enjoy and learn as a family throughout the year.

The emblematic **Route of the Villas** is a pleasant stroll by the sea that runs through old modernist residences from the 19th and early 20th centuries. These majestic houses, surrounded by gardens and full of history, invite families to discover a past of elegance, architectural curiosities and anecdotes that fascinate both children and adults.

Another place that sparks children's imagination is the **Torre de Sant Vicent**, built in the 16th century to guard the coast against pirate attacks. Today you can visit and discover its history in a didactic and entertaining way through a guided tour of its

interpretation centre, which features interactive screens and virtual reality glasses. Thanks to spaces like this, Benicàssim's heritage is presented as an enriching alternative to sun and beach tourism, ideal for sharing unique moments and having fun as a family.

The religious heritage also offers interesting options, such as the **church of Santo Tomás de Villanueva** and the **Desert de les Palmes monastery**. The latter, located in the heart of nature, allows for combining culture and hiking in an ideal experience for families. The little ones can explore ruins full of history while learning about monastic life and the natural environment around it, in a plan that unites education, fun and the outdoors.
