Voramar Beach

A unique place to live unforgettable experiences while connecting with the surroundings.

GREENWAY OF THE SEA

The Greenway of the Sea is a coastal route that follows the old Valencia-Barcelona railway and links Benicàssim with Oropesa del Mar along the shore. At nearly 6kilometers long, it is suitable for cyclists, pedestrians, and people with reduced mobility.

It traverses natural areas of great environmental and scenic value, such as Les Platgetes de Bellver area (Benicàssim), the native vegetation in Monte Bovalar (with Mediterranean pine trees), and the rocky coves and seabed of La Renegà and El Retor beaches (Oropesa). The trail passes through cuttings, tunnels, and zones open to the sea

with spectacular cliffs, and includes rest areas with benches and bike parking.

This pleasant stroll by the sea can be linked directly to other walking routes like the Route of the Villas, or by bike to the Benicàssim Cycle-tourism Route.

BENICÀSSIM CYCLE-TOURISM ROUTE

The scenic cycling route in Benicàssim is the best way to explore its most representative landscapes without getting off your bike. It is a circular ride of over 15km, allowing you to take in at a relaxed pace the contrast of natural areas and environments such as the southern promenade, the marshland, or the urban center.

Moreover, because the terrain is almost flat, this route is adapted for reduced mobility, and it is also ideal for both athletes and families. The route includes four rest areas equipped with seating and bike parking spots, perfect for refueling or enjoying the views.

The Sports Department offers a municipal bike-loan service:

ROUTES THROUGH EL DESERT DE LES PALMES NATURAL PARK

El Desert de les Palmes, declared a Natural Park of the Valencian Community in 2013, offers great natural, historical, and social richness, with many treasures to discover across its 3,200 protected hectares.

Along the ten marked hiking trails and the three MTB routes crossing the park, visitors can explore iconic spots such as the Bartolo peak (729m), the Castle of Montornés (11th century), the Castle of Miravet, the Old Castle and Hermitage of La Magdalena, and the Monastery of the Carmelite monks, where Carmelitan Liqueur was traditionally made.

The unique and beautiful landscape of Desert de les Palmes is home to endemic vegetation and diverse wildlife that find refuge there, where greens contrast with the reddish tones of the rodano stone, and small springs flow down its slopes. This exceptional scenery provides a fantastic setting for outdoor sports and recreational activities.

Benicàssim Tourist Info organizes guided tours in the Desert de les Palmes Natural Park:
